

# INTERNATIONAL WORKSHOP ON POLLUTION PREVENTION AND SUSTAINABLE DEVELOPMENT

**JOINT PARTNERS IN POLLUTION PREVENTION  
PARTNERING FOR SUCCESS**

**November 1-2, 2006 • Colorado Springs, Colorado**

## Mark Your Calendars!

The National Aeronautics and Space Administration (NASA) is holding an International Pollution Prevention and Sustainable Development Workshop on November 1-2, 2006 in Colorado Springs, Colorado. An exciting program is being planned that will include presentations and informal discussions on the issues, progress, and technological solutions (from R&D to commercial) related to pollution prevention and sustainable development. Of particular interest will be technologies applicable to military and aerospace operations, including:

### Pollution Prevention

- Cleaning
- Coatings and pretreatment
- Depainting
- Electronics manufacturing and repair
- Solvent reduction/recovery
- Green propellants

### Sustainable Technologies

- Renewable energy (especially wind and solar)
- Hydrogen and fuel cells
- Bio-based products
- Green buildings

... and more !

Do not miss this opportunity to hear distinguished guest speakers and workshop leaders present a wealth of information and ideas relevant to U.S. and European engineers and scientists interested in solving their pollution prevention and sustainability problems.

## Who should attend?

This workshop will be geared toward materials and process engineers from the United States, Europe, and elsewhere affiliated with government agencies as well as large and small businesses.

## Hotel information

The workshop will take place at the [Cheyenne Mountain Resort](#)  
3225 Broadmoor Valley Rd., Colorado Springs, CO 80906; Telephone: (800) 428-8886
